

## Weekly Objectives / Tasks 11.5.20

<p style="text-align: center;"><u>Science</u></p> <p>Focus: Investigation, why do... Why do some people keep feeling sea sick and wobbly even after they are back on dry land? Can you think of your own question to ask Mr Hopegood? A great book to look at is "Does anything eat wasps? And 101 other questions."</p>	<p style="text-align: center;"><u>Design and Technology</u></p> <p>Focus: Making your own fun. In WW II you couldn't just go and buy toys and games whenever you got bored but had to find your own fun. Look at the paper boat sheet, use the link to the clip if you like, children used to make them out of newspaper. Have a go, does it float? Look and see what other games and toys that children might have been able to make for themselves.</p>	<p style="text-align: center;"><u>Art</u></p> <p>Focus: The Blitz. From September 1940 until May 1941 the German Luftwaffe bombed 16 British cities, most famously London and Coventry. Can you make a picture of the Blitz, I have put a couple up that you might like to copy. Remember only to search for children's education websites, start with the BBC.</p>	<p style="text-align: center;"><u>History</u></p> <p>Focus: War Memorials. War Memorials were built in most towns and villages after the First World War and added to after the Second World War. Find out where the one in your village is. Are you related to anyone listed there or did any of your family members know them? Find out about the Cenotaph. Why does it mean so much to so many people?</p>
<p style="text-align: center;"><u>English</u></p> <p>Focus: Paired writing. With a friend that you are able to see and hear on your tech, a sibling or an adult write a description of your everyday life taking it in turns to write the sentences. Be careful! You'll have to agree and plan your writing or it won't make sense.</p>	<p style="text-align: center;"><u>Maths</u></p> <p>Focus: Understanding scale factors. You can use scale factors to compare similar shapes of different sizes and work out missing dimensions. Look at the introduction sheet first and then go onto to problems. Can you find any items in the home that are a similar shape but a different size? Need more maths? Try these links: <a href="https://whiterosemaths.com/homelearning/year-6/">https://whiterosemaths.com/homelearning/year-6/</a> <a href="https://whiterosemaths.com/homelearning/year-5/">https://whiterosemaths.com/homelearning/year-5/</a></p>	<p style="text-align: center;"><u>Reading</u></p> <p>Focus: What have you read and what did you like? You have had a few weeks of choosing your own books to read at home. Make a list of what you have read, what you liked and what it has made you choose next. I'm interested in non-fiction as well as your fiction reading. Have it ready for next week's zoom meeting to share if you feel confident enough.</p>	<p style="text-align: center;"><u>The Night Sky</u></p> <p>Focus: What we can see without telescopes. Follow the link, ask an adult to read it with you, some of it will need a bit of help and see what we can see! <a href="http://www.astronomyclubs.co.uk/observing-the-night-sky/i-spy-with-my-unaided-eye">http://www.astronomyclubs.co.uk/observing-the-night-sky/i-spy-with-my-unaided-eye</a>  You MUST remember, NEVER EVER look at the sun.</p>
